

0-1

INTELLIGENCE EVALUATION SHEETIES Control Number: "0"Source Number: 021

SECTION I

Collection Requirement:

*Determine if Remote Viewing can be successfully utilized as a HUMINT collection effort against foreign personalities of interest to the NIS intelligence community.*Collection Requirement Generated By:
(ICR/CIR/DIRM/INITIATIVE/OTHER)DIA (DT-5A).

Does the information satisfy your Intelligence Collection Requirement?	YES	IN PART	NO	CANNOT BE DETERMINED
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

A narrative explanation is required:

A high degree of correlation of target descriptions by Source 021 and Source 101 is indicative that individuals appear readily accessible as target personalities by remote viewers.

(Use a continuation sheet if necessary.)

(classification)

SECTION II

This section deals exclusively with the accuracy of the information provided, not its usefulness. Responses are scaled from 0-3 utilizing the following explanatory criteria. If a source has not addressed a particular item then select UNKNOWN. If a source describes an item which cannot be verified then select CANNOT BE DETERMINED.

0 - Little or no correspondence with known or suspected components of the target site.

1 - Evidence that the proper target site is being described, however the information contains a mixture of correct and incorrect elements.

2 - Good site correspondence with several items recognizable or confirmatory in nature but some incorrect or irrelevant information is reported.

3 - Good correspondence with the target with unambiguous and unique information and relatively little known incorrect information.

	0-3	UNKNOWN	CANNOT BE DETERMINED
IIa - Geographic locale description, i.e., terrain, bodies of water, mountains, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
IIb - Large scale manmade objects, i.e., cities, rail yards, silos, docks, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
IIc - Small scale manmade structures, i.e., antennae, computers, vehicles, missiles, small buildings, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
IIId.- General target functions, i.e., research, production, training, storage, troop billets, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

(classification)

0- Little or no correspondence with known or suspected components of the target site.

1 - Evidence that the proper target site is being described, however the information contains a mixture of correct and incorrect elements.

2 - Good site correspondence with several items recognizable or confirmatory in nature but some incorrect or irrelevant information is reported.

3 - Good correspondence with the target with unambiguous and unique information and relatively little known incorrect information.

IIe - Specific target functions, i.e., nuclear testing, CBR storage/research, missile testing etc.

0-3

UNKNOWN

CANNOT BE DETERMINED

IIIf - Personalities at site, i.e., descriptions, activities, responsibilities, political proclivity, support for government.

See Below

IIIg - Data of predictive importance, i.e., plans, preparations hostile intentions.

See Below

A narrative elaboration is requested:

If - Correlation of information with data provided by source 101 is indicative of correspondence to the target

IIg. accessibility to target personalities appears readily feasible.

Future exercises involving data of a predictive nature in the area of target personalities will require the levy of specific intelligence questions tasked against past

(Use a continuation sheet if necessary.)

or future time windows.

(classification)

SECTION III

Please check which best describes the intelligence value of the information provided.

<input checked="checked" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
VERY USEFUL	USEFUL	MARGINAL VALUE	NO VALUE	CANNOT BE DETERMINED

Narrative comment required. Explain how information provided will be used (i.e. confirm other intelligence sources, targeting, etc.). If information is of marginal or no value, explain why.

Based on the favorable results of past efforts coupled with apparent successes of Source 021 and Source 101 against target personalities, it is reasonable to assume that remote viewing against foreign personalities of intelligence interest is readily feasible.

(Use a continuation sheet if necessary.)

(classification)

SECTION IV

This organization solicits your frank and informal comment on any aspect of this project which could better aid us in providing high quality intelligence to the consumer. Please feel free to use the space below or additional sheets of paper as necessary to convey your thoughts.

- Source 021's sympathetic, albeit emotional reaction to target personality is indicative of a propensity to access such targets.

- Operational protocols that will minimize Source's emotional involvement with target personalities is being addressed.

Other OBSERVATIONS

RE 021

- Scc 021 should have been instructed to write a summation during a subsequent period ^{when} ~~where~~ emotions had subsided.
- (~~Scc~~ Scc 021 should not have been allowed to skate on this issue).
- A high percentage of our sessions deal with people directly or indirectly; evidently, Scc 021 needs to be counseled on how to cope with the situation.
- It appears that Source is convinced that she must ~~not~~ does share in the emotional trauma of the target personality. ~~Scc 021 needs to be~~ ~~advised, convinced, guided in methodology~~ ^{Scc 021 needs} to be advised, convinced, guided in methodology that distinguishes between objective observation and emotional impact.
- The fact that 021 reacts so ~~sto~~ ^{strongly} & emotionally is indicative that indeed this type of target is easily accessed by the Scc (021).
